Frontend	React.js, Tailwind CSS, Responsive Web Design
Tools	Vite, Git, GitHub, VS Code, Netlify, GitHub Pages
Web	DOM Manipulation, Browser Storage, API Fundamentals
Currently Learning	Node.js, Express.js, REST APIs

PROJECTS

Netflix UI Clone

HTML5, CSS3, JavaScript | Live: tarunkaushik00.github.io/streaming-ui-clone/ | GitHub: github.com/tarunkaushik00/streaming-ui-clone
Built a responsive Netflix-inspired streaming interface with modern layouts, interactive frontend elements and mobile-friendly presentation.

X (Twitter) UI Clone

HTML5, Tailwind CSS | Live: tarunkaushik00.github.io/x-clone/ | GitHub: github.com/tarunkaushik00/x-clone
Created a responsive X-inspired social-media interface with navigation, feed, trending sections and desktop-to-mobile layouts.

Todo List App

React.js, Vite, Tailwind CSS | Live: tarunkaushik00.github.io/ToDo-list-app/ | GitHub: github.com/tarunkaushik00/ToDo-list-app
Developed a task-management application with task creation, completion and deletion using React components, state and a responsive Tailwind UI.

Spotify Clone

HTML5, CSS3, JavaScript | Live: spotifyclonetc.netlify.app/
Built a responsive music-streaming interface inspired by Spotify, including navigation, library, playlists and music-player-oriented UI.
